A1. Create your own topology as below.

(a) topo.py

- ---Not in this PDF file---
- ---see topy.py and start.py in my homework package---

(b) the network topology figure.

A2. Create static routes.

(a) The routing table at all nodes (as a screen capture), explain what you did.

Here are the five steps I did.

- 1. Create hose and add link in topo.py
- 2. Set every host's interface an appropriate IP address in topo.py
- 3. Set configure file configs/daemons: zebra=yes
- 4. Activate the ip forwarding variable to 1 in start.py
- 5. Set configure file configs/zebra.conf: set routing table with command "ip route dest gateway"

To elaborate step 5, I give the configuration for host r1 as an example:

r1/zebra.conf:

```
ip route 223.1.3.0/24 223.1.1.2
ip route 223.1.4.0/24 223.1.2.1
ip route 223.1.6.0/24 223.1.1.2
```

Here are the screen captures.

mininext> h1 route										
Kernel IP routing table										
Destination	Gateway	Genmask	Flags	Metric	Ref	Use	Iface			
default	223.1.5.1	0.0.0.0	UG	0	0	0	h1-eth0			
223.1.5.0		255.255.255.0	U	0	0	0	h1-eth0			

mininext> h2 route											
Kernel IP rout. Destination	ing table Gateway	Genmask	Flags M	etric Ref	Use Iface						
default	223.1.6.1	0.0.0.0	UG 0		0 h2-eth0						
223.1.6.0		255.255.255.0	U 0		0 h2-eth0						
mininext> r1 route											
Kernel IP rout Destination	ing table Gateway	Genmask	Elage M	letric Ref	Use Iface						
223.1.1.0	*	255.255.255.0	U 0		0 r1-eth2						
223.1.2.0		255.255.255.0	U 0		0 r1-eth1						
223.1.3.0	223.1.1.2	255.255.255.0	UG 0		0 r1-eth2

223.1.3.0	*	255.255.255.0	U 6		0 r4-eth1 0 r4-eth2						
223.1.5.0	223.1.3.1	255.255.255.0	UG (0 r4-eth1						
223.1.6.0	*	255.255.255.0		9 0	0 r4-eth0						

(b) provide the trace route output that gives the path between nodes h1 and h2

```
mininext> h1 traceroute h2
traceroute to 223.1.6.10 (223.1.6.10), 30 hops max, 60 byte packets
1 223.1.5.1 (223.1.5.1) 0.019 ms 0.004 ms 0.003 ms
2 223.1.1.2 (223.1.1.2) 0.011 ms 0.005 ms 0.004 ms
3 223.1.3.2 (223.1.3.2) 0.011 ms 0.007 ms 0.006 ms
4 223.1.6.10 (223.1.6.10) 0.012 ms 0.007 ms 0.006 ms
```
